

## Bookmark competition template

### Kind of important stuff

- 1) Use the grey area (a.k.a. the bleed) around the bookmark to extend your background colour or pattern into, but be aware that it will be trimmed, so don't use it for an important part of your design.
- 2) Please make sure the image you upload is 300dpi.
- 3) The template is the actual bookmark size, width 47mm and height 175mm.
- 4) Please bear in mind that we will add our logo to the top of the bookmark, so try to keep this area fairly simple, without any complicated illustrations.

#### To upload your entry:

Upload your design to your Flickr page and then submit it to the [Flickr group](#) we've set up.

Closing date: **Monday 10 March** Good luck!
